

Seminar Series 2012-2013

DATE	SPEAKER AND FOCUS
January 11, 2013	Pharmacology Student presentations
January 18, 2013	Dr. Martin Philbert, School of Public Health, University Michigan. <i>"Nanomedicine or Nanotox - What should we do and when?"</i>
January 25, 2013	Dr. Allan Gulledge, Dept of Physiology and Neurobiology, Dartmouth Medical School. <i>"A novel mechanism regulating the intrinsic excitability of cortical neurons"</i>
February 1, 2013	Pharmacology Student presentations
February 8, 2013	Dr. Jeffrey Loeb, Dept of Neurology, WSU Sch of Medicine. <i>Using systems biology to develop new treatments for epilepsy</i>
February 15, 2013	Dr. Zhuo-Hua Pan, Anatomy and Cell Biology, Wayne State University School of Medicine. <i>"Optogenetic approaches for vision restoration"</i>
February 22, 2013	To be announced
March 1, 2013	Dr. Arun Anantharam, Dept. of Biology, Wayne State University. <i>"The regulation of membrane curvature during exocytosis."</i>
March 8, 2013	Dr. Hisashi Umemori, Department of Biological Chemistry, University of Michigan <i>"Wiring the Functional Brain".</i>
March 15, 2013	Spring Break

DATE	SPEAKER AND FOCUS
March 22, 2013	<p>Dr. Christopher Ford, Dept Physiology and Biophysics, Case Western Reserve University.</p> <p><i>"Mechanisms underlying dopamine mediated synaptic transmission"</i></p>
March 29, 2013	<p>Dr. John Tesmer, Life Sciences Institute, University of Michigan.</p> <p><i>Regulation of Effector Enzymes by the Heterotrimeric G Protein G(alpha)q</i></p>
April 5, 2013	<p>Dr. Evan Deneris, Dept of Neurosciences, Case Western Reserve University.</p> <p><i>Transcription networks regulating brain serotonin neurons across the lifespan</i></p>
April 12, 2013	Pharmacology Student presentations
April 19, 2013	<p>Dr. John Elsworth, Dept of Psychiatry, Yale University School of Medicine</p> <p><i>"Developing primate dopamine neurons: a moving target for toxicity"</i></p>
April 26, 2013	<p>Dr. Thomas Werner, Dept of Internal Medicine-Nephrology Division, University of Michigan, Ann Arbor</p> <p><i>Cell Type- and Maturation-Specific Activation of the Human CD83 Promoter in Dendritic Cells: Insights from promoter modeling and experimental verification</i></p>
Postponed until Fall 2013	<p>Dr. Gan Wang, Institute of Environmental Health Sciences, Wayne State University.</p> <p><i>XPC proteins in DNA damage response to cancer</i></p>
