

Every year, more than 45,000 students are educated in Pharmacology by less than 6,000 faculty members. As the number of students grows, so too does the need for experienced Pharmacology educators.

I am contacting you on behalf of Dr. Michael Whitt, Associate Dean for Medical Education, and Dr. Trevor W. Sweatman, Director of Pharmacology at The University of Tennessee Health Science Center.

We were hoping you might be able to refer a colleague who is ready to take their next career step in Medical Education.

We are in search of a Pharmacology Educator for an open rank Faculty position at the University of Tennessee flagship academic health system in Memphis Tennessee. The role requires a dynamic and highly motivated clinical professional.

If you are aware of anyone who might be open to learning more about this opportunity, I'd greatly appreciate the chance to connect.

Thank you for taking the time to review my message.

Best Regards,

Julie Miller
